## **EDITORIAL**

### Philippe Legrez, Executive Director of the Michelin Corporate Foundation

Giving our backing to initiatives for sustainable mobility and the wellbeing of local communities, making our contribution to respecting the environment and encouraging creative energies... These commitments count among our five priority actions and epitomize Michelin's purpose. Since 2014, the Michelin Corporate Foundation has endeavored to "Helping people move forward" by sponsoring over 120 projects throughout the world.

Central to our action is the development of patronage representing Michelin's values and role in society.

## LEARN ABOUT

#### Restoring the Gallery of Coaches

The Gallery of Coaches in the Great Stables of the Palace of Versailles in France houses horse-drawn carriages from the Ancien Régime, Empire and Restoration periods. On show are some true masterpieces.

#### Protecting the forest and wild life in Sumatra with WWF Through education and awareness programs and economic support, the Michelin Corporate Foundation and WWF are helping local communities in Sumatra to manage the forest responsibly, combat deforestation and protect wildlife. > Find out more

### **TESTIMONY Discovering the Pause** program

Alain Prochiantz, Administrator of the Collège de France

"We've received 300 applications." The pace isn't slowing, and the very strong demand shows the seriousness of the threat posed to scientists. The PAUSE program sustains a hospitality scheme in France for scientists from countries where the political situation and repression prevent them doing their jobs and puts them and their families in danger. At stake are humanitarian issues of saving lives and preserving freedom of thought and scientific enquiry. It's a bonus for our country. We are aiding top class researchers whose presence here is enhancing France's reputation."

## TWEET OF THE MONTH

Fondation d'Entreprise Michelin

Road safety program in South Africa and Brazil with GRSP How can we sensitize the people of Limpopo in South Africa or Canaa dos Carajas in Brazil to road safety issues? By directly involving them in a novel initiative! With firstly a network of local ambassadors and secondly a dedicated city development project.

## VIDEO

## **GOING FURTHER**

#### Weaving through the streets of Bangkok

Tuk-tuk are motorized tricycles. In Thailand they can be seen mainly around tourist sites where, customized and brightly colored, they are inescapable. In recent years an electric version has been developed with the aim of reducing noise and pollution in cities.
