

## **Marie-Christine Rousset**

Marie-Christine Rousset is a Professor of Computer Science at the University of Grenoble. She is an alumni of The Ecole normale supérieure (Fontenay-aux-Roses) from which she graduated in Mathematics (1980). She obtained a PhD (1983) and a Thèse d'Etat (1988) in Computer Science from Université Paris-Sud.

Her areas of research are Knowledge Representation, Information Integration, Pattern Mining and the Semantic Web. She has published over 90 refereed international journal articles and conference papers, and participated in several cooperative industry-university projects. She received a best paper award from AAI in 1996, and has been nominated ECCAI fellow in 2005. She has served in many program committees of international conferences and workshops and in editorial boards of several journals. She has been junior member of IUF (Institut Universitaire de France) from 1997 to 2001, and has just been nominated in 2011 as a senior member of IUF for developing a five-year research project on Artificial Intelligence and the Web.
