

# Biography Guillemette MOREL JOURNAL

**Guillemette Morel Journal** is an architect and an urbanist with a doctorate in contemporary literature and professor at the EHESS. She is a researcher at the ENSA Paris Malaquais' ACS laboratory. Her work focuses on architects' writings and books, especially those of Le Corbusier. In 2015, she has written two books about the famous architect. A monography published by "Éditions du patrimoine" in the collection called "Carnets d'architectes". She has also written the foreword to the republished facsimile version of Le Corbusier's important and yet little known book entitled "L'Atelier de la recherche patiente" published by Éditions Fage.
