

Loïc Barthe

Loïc Barthe has been assistant professor at the Computer Graphics group (VORTEX group) of the computer research institute of Toulouse (IRIT) since September 2003. He received his PhD in September 2000 at the University of Toulouse and spent two years working as research associate in the Rainbow group of the University of Cambridge (UK) and in the Computer Graphics and Multimedia group of the RWTH of Aachen (Germany).

He is interested in expression through graphics in general and specially in shape representation, geometry rendering, animation and intuitive modeling, topics in which he published several publications in major journals and international conferences (*ACM Siggraph*, *ACM TOG*, *Eurographics*, *IEEE-TVCG*, *CGF*, etc). He is president of the *Eurographics France* executive committee since 2014, after being its Vice President from 2008 to 2013.

He is co-head of his research group since 2012, associate editor for the international journal *Graphical Models* since 2010 and has also been member of several international conferences, best paper award juries and program committees such as for *Geometric and Physical Modeling*, *Shape Modeling International*, *Point Based Graphics*, *Sketch-Based Interfaces and Modeling*, *Eurographics Workshop on Natural Phenomena*, *Siggraph Asia Technical Sketches and Posters*, etc.
