

Hugues de THÉ, Professeur

**Colloque
Differentiation therapy of cancer**

**Vendredi 14 juin 2019
Amphithéâtre Maurice Halbwachs**

- 9h30 Welcome, seminar opening
Hugues de THÉ, *Collège de France et Hôpital St. Louis, FR*
- 9h40 The history of differentiation therapy of human leukemia
Laurent DEGOS, *Hôpital Saint-Louis, FR*
- 10h10 Function of cell cycle in differentiation
Ludovic VALLIER, *University of Cambridge, UK*
- 10h40 Break
- 11h Uncoupling differentiation and self-renewal in APL and AMLs
Hugues de THÉ, *Collège de France et Hôpital St. Louis, FR*
- 11h30 Differentiation therapy for AML. Lessons from IDH2 mutant AML
Paresh VYAS, *University of Oxford, UK*
- 12h Lunch
- 14h Differentiation therapy for solid tumors
Cédric BLANPAIN, *Université Libre de Bruxelles, BE*
- 14h30 A Journey for cure of Adult T Cell Leukemia
Ali BAZARBACHI, *American University of Beirut-Medical Center, LB*
- 15h Tumor cell plasticity as a challenge for targeted therapies
Frédéric de SAUVAGE, *Genentech, Inc, USA*
- 15h30 Break
- 16h Immunogenic cell death in cancer therapy
Guido KROEMER, *Centre de recherche des Cordeliers, FR*
- 16h30 Conclusions
Hugues de THÉ, *Collège de France et Hôpital St. Louis, FR*
