

CHAIRE ONCOLOGIE CELLULAIRE ET MOLÉCULAIRE

Année académique 2014-2015

Hugues de THÉ, Professeur

Les mille et une facettes de P53

Séminaire en anglais

Jeudi 21 mai 2015

Amphithéâtre Maurice Halbwachs.

- 09h00** Deconstructing p53 Pathways in vivo
Laura ATTARDI, *Stanford University, Stanford*
- 09h40** p53 is a regulator of telomere metabolism
Franck TOLEDO, *Curie Institute, University Paris 6, CNRS*
- 10h20** Coffee break
- 10h50** The p53 pathway and metabolism: implications in normal tissue homeostasis, aging and cancer progression
Laurent LE CAM, *INSERM, Montpellier*
- 11h30** Metabolic control of cancer fate decisions
Karen VOUSDEN, *Beatson Institute, Glasgow*
- 14h00** The Evolution of tumours in p53 deficient mice and humans
Arnold LEVINE, *The Institute for Advanced Study, Princeton*
- 14h40** Does the broader human population have innate differences in p53-mediated tumour suppression
Gareth BOND, *Oxford University, Oxford*
- 15h20** p53's messenger RNA: The other side of the coin
Robin FAHRAEUS, *INSERM, Paris*
- 16h00** Coffee break
- 16h30** Regulation of self renewal in Cancer Stem Cells
Pier Giuseppe PELICCI, *European Institute of Oncology, Milan*
- 17h10** P53 reactivation therapy in Melanoma
Jean-Christophe MARINE, *KU Leuven*
