## EDUCATION

**Engineering degree: biological engineering, 2021- 2024**  
CNAM – Paris

**Digital degree in infectious diseases, 2021- 2022**  
Institut Pasteur – Paris

**Master's 1: Integrative Biology and Physiology, 2020 – 2021**  
Sorbonne Université- Paris

**Bachelor's Degree in Life Sciences, 2017 – 2020**  
Sorbonne Université- Paris

## WORK EXPERIENCE

***Engineer – Lab Manager, 03/2024 – ongoing***  
***Collège de France – Denis Duboule Laboratory***

- Provide technical assistance to the research team in terms of cell culture equipment and cell line management.
- Carry out and develop cell culture and molecular biology experiments by adapting protocols.
- Collect and format the information necessary for the proper conduct of the experiment; laboratory notebook.
- Manage inventory, orders, and invoicing.

***Laboratory Technician, 02/2023 – 11/2023***  
***STALLERGENES GREER***

- Perform/record/verify immunological analyses as part of quality control for raw materials, active ingredients, manufacturing intermediates, semi-finished products (and primary packaging) for commercial products, stability testing, process validation, or process monitoring in accordance with GMP and current documentation.
- Immunological analyses: ELISA inhibition and sandwich tests, Bradford, vertical and horizontal SDS-PAGE..

***Laboratory Technician, 12/2022 – 01/2023***  
***IDEXX***

- Preparation and start-up of analytical equipment, conducting analyses from samples, validation of results, sample management.
- -Management of laboratory materials and equipment, participation in inventory tracking (reagents, consumables, etc.), routine maintenance of my workstation, waste disposal.
- Analysis and interpretation of results, preparation of reports for the manager, recording of data in the software.
- Evaluation of histology samples and analysis of histological sections.
