

Dr. Christophe BOTELLA

Nationality: French | Born on 18/01/1991 in Auch
Address: Bureau 02.249, Bâtiment 5, Inria, Université Montpellier,
860 rue St Priest, 34095 Montpellier cedex 5
Ph.: +33 (0)6 709 709 81 | Mail: christophe.botella@inria.fr
Personal page: www.christophebotella.fr

Education

- **2009-2010:** Lycée Pierre de Fermat, 1st year of preparatory school, MPSI (Maths-Physics).
- **2010-2012:** LEGTA Auzerville, 1st and 2nd years of preparatory school BCPST (Biology-Chemistry and Maths).
- **2012-2016:** AgroParisTech, Paris Institute of Technology for Life, Food and Environmental Sciences. With International Experience Certificate (CEI) during a Gap year (2014-2015). Last year: **M2 Mathematics for Life Sciences** (University Paris-Sud / 11).

Academic positions

- **October 2023 – Present:** Permanent research scientist (Chargé de recherche /ISFP), INRIA, Iroko team, UMR LIRMM, University of Montpellier. Member of the Pl@ntNet team.
- **March 2024 – Present:** Lecturer in Statistics at Institut Agro Montpellier.
- **February 2023 – September 2023:** PostDoc INRIA for the MAMBO Horizon EU project, in the Pl@ntNet group, LIRMM, Montpellier, France. Supervisor: Alexis Joly (Inria).
- **August 2021 – January 2023:** PostDoc Fellow at Center for Invasion Biology (C.I.B.), Stellenbosch University, South Africa. Assessing the current and potential value of iNaturalist data for invasion science in South Africa. Supervision: Prof. David M. Richardson (C.I.B., Stellenbosch University) and Prof. Cang Hui (BioMath, C.I.B., Stellenbosch University).
- **December 2019 – June 2021:** PostDoc CNRS at Laboratoire d'Ecologie Alpine (LECA). Comparison of trophic interaction network architectures using graphs embedding methods. Supervision: Vincent Miele (CNRS, LBBE), Wilfried Thuiller (CNRS, LECA), Stéphane Dray (CNRS, LBBE), Catherine Mathias (CNRS, LSPM). Funded by ANR project EcoNet.
- **October 2016 – September 2019:** PhD candidate INRA, at UMR AMAP, Montpellier. Statistical methods for plant species distribution modeling based on massive occurrences from citizen sciences programs. Supervision: Alexis JOLY (CR INRIA Zénith), Pascal MONESTIEZ (DR, INRA BioSP), François MUNOZ (Pr U. Grenoble). Funded by the INRA - INRIA national scholarship 2016. Defended on 08/10/2019 for the grade of Doctor in Biostatistics.

Citizen science platforms can effectively support early detection of invasive alien species according to species traits. *People and Nature*, 7(1), 278-294. <https://doi.org/10.1002/pan3.10767>
- Ryckewaert, M., Marcos, D., Botella, C., Servajean, M., Bonnet, P., & Joly, A. (2026). Applying the maximum entropy principle to neural networks enhances multi species distribution models. *Methods in Ecology and Evolution*. <https://doi.org/10.1111/2041-210x.70262>

Supervisions

- **PostDocs:** Maxime Ryckewaert (2023-2025), Lukas Picek (2024-2025), Vincent Espitalier (2023-2024).
- **PhD students:** Raphael Benerradi (2024-2027), Pablo Ubilla Pavez (2025-2028), Charlotte Tibi (2026-2029), Tristan Bouteville (2026-2029).
- **Master students:** Benjamin Deneu (M2, 2018), Isabella De Beer (2022-2023), Michele Ter Hurne (Master, 2022-2023), Wesley Douglas (Master, 2022-2023), Louis Aury (M2, 2024), Marion CANN (M1, 2025), Massilya Raked (M1, 2025).

Participation in international projects

- MAMBO Horizon Europe project (2023-2026)
- B3 Horizon Europe project (2023-2026)
- PRISMA project funded by Agencia Estatal de Investigación (2024-2028)
- BEAGLE Horizon Europe project (2026-2030)

Other academic activities

- Scientific animation: Member of the Cisstats network organizing committee, Organizer of the deepSDM symposium in 2025, Animator of the Inria Iroko team monthly seminars, co-animator of the DirtySDMeeting group in Montpellier for species distribution modeling with heterogeneous data since 2026.
- Referent of the comity for sustainable development (CLDD) for the Inria branch at the University of Montpellier and supervisor of CO2 emissions assessments since 2024.
- Member of the scientific council at the Conservatoire d'Espaces Naturels (CEN) Occitanie since 2025.
- Advisory board member for the GAIA-Predict project since 2024.
- Regular reviewer for journals in ecology and its statistical, mathematical and computational interfaces (e.g. Nature Communications, Methods in Ecology and Evolution, Ecological Informatics, STOTEN, Biological Conservation).
- Organiser of the GeoLifeCLEF campaigns for the open evaluation of Species Distribution Models in 2018, 2019, 2023 and 2024.
